

SOFT TARGET: A mystery romance suspense thriller

Susan Asher made her first agreement with William Campton and they walked into his Miami penthouse unit to pay each other off and to trade their mutual interests. He wanted the pretty blonde naked and he was ready to pay to play. He thought that she was only in it for the money at first. Susan had a few other things that she was after. But she didn't know how much he believed in giving to receive. He was her hard target even as she was his soft target. She learned that he was hard about a whole lot of things. The pretty escort of his night learned that he fancied spanking her to help her get her mind right and he wanted her to crawl before she could walk. The naked events became a journey for her but exit and entry was the secret that she was driving towards all along. They both thought that more was never enough. The question was who would win the bidding war. They went all in to find out.
