

Queer Mobilizations: LGBT Activists Confront the Law

Fighting for marriage and family rights; protection from discrimination in employment, education, and housing; criminal law reform; economic justice; and health care reform: the LGBT movement is engaged in some of the most important cultural and political battles of our times. Seeking to reshape many of our basic social institutions, the LGBT movements legal, political, and cultural campaigns reflect the complex visions, strategies, and rhetoric of the individuals and groups knocking at the laws door. The original essays in this volume bring social movement scholarship and legal analysis together, enriching our understanding of social movements, LGBT politics and organizing, legal studies, and public policy. Moreover, they highlight the struggle to make the law relevant and responsive to the LGBT community. Ultimately, Queer Mobilizations examines how the LGBT movements engagement with the law shapes the very meanings of sexuality, sex, gender, privacy, discrimination, and family in law and society.
