

Fundamentals of Spiritual Alchemy

This live workshop focuses on identifying the influences in our lives that keep us from making changes, and understanding the wisdom that the ancients of the Mystery Schools of the Middle Ages had...teaching the insight necessary to begin changing your lead issues to gold (changing the bad in our lives to good). Caroline Myss delves into this rich field of inquiry by describing how you can begin to become a Spiritual Alchemist - being able to change the way you look at yourself and your contract through the chakra system - universal patterns of consciousness that influence your psychological spiritual development. As part of this fascinating discussion, Myss even illustrates the alchemical concepts present in the story of The Wizard of Oz!
