

Sex Oughta Be Luscious

Mike has watched Lynda for months. He wants her. Hes asked her out several times only to be told no. Her reasoning baffles him; he sees no problem with her being eighteen years his senior. He doesnt believe its anybodys business that they work together. If she would simply give him a chance, he could show her exactly how much fun they could have. Lynda has done everything within her power to discourage Mikes attraction to her. Hes idealistic. However she resides in the real world, and at forty, she has certainly learned a few things. To top it off, shes his boss, and she cant keep avoiding him. Her only option is to nip his growing infatuation in the bud. She simply has to figure out how to do that when she wants him as much as he desires her. All things considered, she has her work cut out for her.
