

## Private Party (Justin Carter Green Erotica)

For the 3 months since Robert, Callie has relied on her vibrator for satisfaction. It might not be so satisfying but it was less demanding and was always there when she needed it. She didnt miss the emotional upheaval of a relationship. Now, as she tries to finish a uni assignment, avoiding the house party outside the sanctity of her door, a stranger reminds her of how much she has been missing. An erotic romance, this is still not for the faint hearted, containing graphic sex and light bondage. This is an explicit short story involving sex between two consenting adults. Please do not purchase if this is more than you can handle. Please note the Amazon page count includes the (active) table of contents, list of titles available and other stuff, totalling about 10 pages. The remainder is the story (about 26 print equivalent pages)!\*\* Also available in the value collection : The Entire Sex So Far - Volume Two \*\*
