

Stylin with CSS: A Designers Guide

Cascading Style Sheets enable you to rapidly create web designs that can be shared by hundreds of web pages, accelerating development times and centralizing text and layout information for easy editing and updates. Stylin with CSS teaches you everything you need to know start using CSS in your web development work, from the basics of markup of your content and styling text, through to creating multi-column page layouts without the use of tables. Learn how to create interface components, such as drop-down menus, navigation links, and animated graphical buttons, using only CSS no JavaScript required. Discover how to design code that will work on the latest standard-compliant browsers, while working around the quirks of the older browsers. With a mastery of CSS, your web design capabilities will move to a new level, and everything you need to know to get your started and build your skills is right here in this book. You'll be stylin in no time!
