

Your child & drugs

Johnny Alton is a handsome, fifteen-year old boy. He has a drug problem. Why? Johnny is one of approximately 60 percent of today's kids who have experimented with drugs by the age of eighteen. His experimentation, even for a few months, left him with a drug problem. What drives kids like Johnny to use drugs? Ross Campbell answers this important question so that you will be able to help your own child avoid drugs or recover from an addiction to them. Johnny Alton has a problem. He can be helped.
