

Tentacle Creatures on Earth 6: Surrender (Sci-Fi Futanari Erotica)

The best laid plans never work out. The same is true for the only human rebellion against the alien tentacles that claim Earth as their own. A daring scheme to stop Queen Alexandra, the tentacle queen of Earth, has failed miserably. The attack was a great idea until the captives have to suffer the humiliating and wanton consequences of their insurgence. The survivors are subject to thick, pulsing, phallic tentacles as well as the evolved, alien hybrid women that sport something just as thick between their legs. At the lustful whim of the aliens, the captive women are given the choice to surrender, and all will be forgiven. Noel and Lilianne, the weakest members of the rebellion, are the first to accept the terms. Will the duo be freed, as they were led to believe, or does surrendering mean willingly giving up their humanity to become horny alien hybrids? This 7,800 word erotic short story contains sexual situations, and is only intended for adult readers.
