

## Cara

Here is a stand-alone piece of Erotica, written in the delicious and sensual style of Emilia Foxton. Cara White thinks she's got the perfect marriage. Her husband, James, is a sweet, tender man who works hard to take care of her. They both come home from their jobs in the evening, make dinner together, then watch their favorite television shows on Netflix before turning in. The sex is great. The problems start when they start going out. At James's request, the two start going out once a week on a date night. James insists that it'll be good for their relationship, but Cara notices how oddly he behaves on each of these nights. He seems to be constantly on the lookout for guys staring at her, but instead of getting angry, it only seems to turn him on whenever he spots one. She doesn't make much of it until the night they hit a bar and James gets a little tipsy. He starts whispering in her ear about the handsome black bartender who just can't get enough of her plump white ass. Cara is embarrassed, but a little flattered by the obvious attention, and James murmuring about all the things a big man like that might do to a tiny woman like her gets her turned on more than she'd like to mention..... This ebook contains very hot and explicit descriptions of romantic activity. Only mature readers should download this book. Reviews: Not my first Foxton experience and I must say I love the fact that these books are short and very sweet. As a busy mom, I do not have time to read an entire novel and sometimes just want a short adventure, Emilia certainly delivers! All scenes are believable and succinct leading the reader to where they want to go without a lot of fluff. The sex is hot and the fantasies are equally steamy. Great read. a five star review on Amazon.com
