

The Human and the Omega (The Omega Auctions Book 4)

There is a love that is forbidden... When Kale hears a knock on his door in the dead of night it marks the start of something that changes his life forever. Not only is the man that he takes in one of the most beautiful that Kale has ever seen but there is something about him that Kale can't quite understand... When the full moon arrives Kale soon finds out exactly what that something is. Aidan is an omega wolf shifter and he is not only running from the pack who wanted to abuse him, but running towards the hope of a new life. But finding that new life is not going to be easy because before long an attraction explodes between Kale and Aidan and it is attraction that soon begins to define them both. Only, humans and wolves are not meant to be together, and they will have no choice but to part...unless their forbidden love can find a way...
