

House Call (Taboo Bareback Medical Exam)

When Penny and her new husband have trouble getting pregnant, the first person she talks to is one of the top fertility specialists in Chicago - who she's always had a special relationship with. He tells her not to worry, and he gets her to meet him at his clinic for some tests. Although not usually shy, Penny still finds it strange to be undressed in front of him, and it becomes even more uncomfortable when the examination seems to get very touchy feely. When the doctor calls the following weekend to tell her to meet him back at his house, though, she doesn't know what to expect. Especially not that he has a very naughty solution to her fertility issue in mind, and his new examination table is her old bed!
