

The Night He Saved Me

Katarina One night. One party. One girl forever changed. I was supposed to stay on the path I had chosen. Go to college and make something of myself. But doing it all alone wasn't easy, and it seemed everyone was against me. Except James. He was there to catch me when my world crumbled, cradling my emotions and wrapping me in his secure embrace. James was there when the entire world disappeared. James One glance. One undeniable connection. One life forever changed. Keeping myself hidden from a legacy I wanted no part of, I lived a content life. Until her. She swept in, making me forget all the bad that haunted me. Now, the past I tried to run from has caught up, and I have more to lose than ever. She's the target, and I'm the shield. She thinks I saved her, but she's the one who rescued me. Two worlds. Two hearts. And a lifetime of trials.
