

The Red-Green Axis: Refugees, Immigration and the Agenda to Erase America (Civilization Jihad Reader Series Book 4)

In this extraordinary study, investigative reporter Jim Simpson builds upon and adds considerable detail to the research conducted by Ann Corcoran. Her blog, Refugee Resettlement Watch, has become an indispensable resource for those concerned with the UN-directed and U.S. government-enabled colonization of America, all too often by unscreened aliens. Like Ms. Corcoran's monograph in this Civilization Jihad Reader Series, Refugee Resettlement and the Hijra to America, the present volume pulls back the curtain on a practice that has been going on for years with a view to, in President Obama's words, fundamentally transform America. Mass migration and colonization seeks to erase America. It is enabled by myriad legal US immigration programs but most especially the refugee resettlement program, its contractors and subcontractors, left-wing philanthropies and activists. For those who love this country, its Constitution and freedoms, the picture Jim Simpson paints is alarming. It must be a catalyst for concerted action to prevent such an outcome. This monograph offers practical suggestions for mounting an effective resistance.
