

## Petr's Mate (Space Wars Book 4)

She had no idea how much her life was about to change. Recruited by NASA to be part of a special team tasked with finding a new world in space, Doctor Samantha Kennedy reluctantly embarks on a six-year voyage. But when a meteor shower forces the crew to take shelter, something goes horribly wrong. Thrown through time and space, she wakes up surrounded by chaos. Her spacecraft is destroyed. Everything she loves is gone. A tall, alien stranger is her only comfort in this bizarre new world. Fleet Admiral Petr van Jahnsen has seen many things in his career. The strange spacecraft was new even for him, though. But it's the woman inside that truly fascinates him. Against all odds, everything about the mysterious stranger calls out to him in a way nothing ever has. Now all he has to do is convince her that she's his mate.
