

## Potomac Valley Watercolorists: Celebrating 40 Years 1974-2014

Since 1974 when the organization was started, membership in the Potomac Valley Watercolorists has been synonymous with a high standard of skill, creativity, and commitment to water media. In this book 175 members of PVW have come together to share some of their best work, along with insights on the personal processes used to create these particular paintings. In this way they honor the 40th anniversary of their much-loved organization, give support to each other, and exhibit an amazing range of water media possibilities. This book is a testament to the talent, energy, hard work and camaraderie that make the Potomac Valley Watercolorists a regional organization with a national reputation.
