

The Wolf Lords Mate (Paranormal Monster Erotica)

Tired of her high society life, Amelia longs to do something wild; something that will fulfill her deepest, darkest fantasies. Something that will make her forget that the man she loves--the man shes about to marry--wants nothing to do with her. Under the guidance of the full moon, Amelia takes to the forest to search out the fabled werewolves that have a taste for young, untouched women. She never expected she would actually find them. When shes confronted by a pack of powerful half-man, half-wolf beasts, its up to her betrothed, Simon, to save her. But Simon has a big, beastly secret of his own, and Amelia may get just what she wants from the one man shes craved all along--a rough night of passion shell never forget. This 10,000 word erotic short features a woman who knows exactly what she wants and a shy werewolf who succumbs to his wild side for his one true love. This is a standalone story with a HEA ending!
