

Time of Useful Consciousness

Louisa Unger, a young German woman in Post-War World II Germany kills a man in cold blood. Despite her crime, her fate is up to her - give up her countrymen for her freedom. She decides to play the loyalty card and remain in prison. During the interrogations, Louisa weaves her tale of the events by evading any real information. She relives reuniting with her estranged brother Freddy, falling in love with Kris, a former reconnaissance pilot and learning to fly to a plane. She recounts in fairy tale fashion of monsters cloaked in shadows and lessons learned by incorrigible children. Seduced into the bliss of romance and flying, Louisa fails to recognize any threat. She grows immersed in the life of a smuggler, a pilot and a lover. It is hard to come back down to earth, when soaring so high.
