

## Tears of Blood (The Drone Vampire Chronicles Book 12)

WARNING: this book contains male homoeroticism. Times have never been more perilous for the Drone Vampires and their allied coven. The war against the Pure Born government continues to take heavy casualties and the Drones are in danger of losing what little bit of freedom they have remaining. At the cusp of a major battle that could very well change the tide of the war, it isn't a good idea to fall in love. Now try telling that to a certain warlock and vampire. From the very first day he came to live with the Drones, Toby has been infatuated with a warlock named Blaine. Not wanting to be rejected by the brooding, yet handsome man, Toby keeps his attraction to himself. Then one fateful day he and Blaine share an intimate encounter and Toby blurts out his attraction only to have Blaine push him away. Blaine cares deeply for the shy, sexy Drone, but he knows that they can never be together. Haunted by a tragic mistake in his past, Blaine doesn't believe he deserves any kind of happiness, let alone someone as wonderful as Toby. Even though it nearly destroys him, he vows to never claim Toby as his. When a turn of events leads the Drones and the coven on the brink of annihilation, Blaine realizes he could lose Toby. Will Blaine be able to overcome the shadows of his past? Or will his doubts put not only himself, but Toby in mortal jeopardy?
