

Understanding Modern Art: The Boundless Spirit of Clay Edgar Spohn

San Francisco artist Clay Spohn (1898--1977), one of the best artists of the modern era, originated art movements of the twentieth century and painted with great beauty. Using Spohn's Notebooks, David Beasley has traced his thought and career. This book is amply illustrated with Spohn's drawings and paintings placed to elucidate the text. Many paintings are in color as Spohn used color superbly. I consider David Beasley's monograph on the work of Clay Spohn one of the most moving documents I have read on an artist, revealing a compassion and sense of justice rarely encountered in the field of aesthetics, - John Hultberg, artist. Although little has been written about him, Spohn was among the most influential artists of his generation, - Susan Landauer, Art Historian.
