

## Unexpected Demands (Hidden Wolves)

Becoming Alpha made Aaron responsible for protecting his new pack against outside threats, but fighting his own desires might pose an even bigger challenge. When Aaron took down a crazy dominant wolf and inherited half a pack, he knew the Alpha job wasn't going to be easy. A week later, he's finding out what an understatement that was. Having a gay wolf in his pack brings lethal threats from other werewolves. Then humans locate his wolves and move in to try to capture and exploit one of them. Aaron has enough pressure and demands without letting his long-suppressed sexuality escape his rigid control. But keeping his distance from a young man who appeals to all his senses could be Aaron's biggest challenge.
