

Werewolf Behind Me (Paranormal Taboo)

Katie sees tall, dark, and primal at a party and she can't look away from his wolfish eyes. When he dances with her she feels the heat, but the full moon rises and her growly hunk disappears. She's not letting him go that easily as she follows him outside and she finds out there is a sexy creature of the night outside howling and looking for a willing female to pounce on from behind. *If you like a little bit of fur and claws this might be your taboo style.
