

MAY IT PLEASE THE COURT

The writer has been deprived of his license to practice law in three states. The basis for these court orders was a confidential complaint made by the writer about the misconduct of a United States District Judge. The complaints included evidence, which pointed to the judges financial ties to litigators with matters in his court. Nevertheless, the judges misconduct was overlooked by supervising judges. The writer reviews the court order which drove him from the practice of law. The point of all this, he concludes, was to banish me from the legal profession, not to find the truth since bringing truth into the light of day would have been uncomfortable for the judge. From the book: Any professional regulatory authority empowered to deprive its members of their reputation and their ability to earn an income should be subject to the highest standards of objectivity and fairness. In the legal community, the opposite is the norm. The rules which govern the behavior of lawyers are explicitly intended to overlook complaints about the venal and self-interested behavior of the most powerful members of the profession. The judges make the rules and see to their own insulation from criticism, oversight and transparency in their dealings with persons interested in judicial outcomes. The judges take pains to block any examination of their off-the-books income streams. Those who are so incautious as to rely on the prescribed complaint rules and who come forward, confidentially, to object to obvious instances of be-robed venality are themselves subjected to the severest sanction. Consideration of salary increases for the judges should be put on hold, the writer asserts. Why? Better rules than the bogus revised ones are needed immediately. In writing their own ethics rules, the judges have given themselves impunity to accept bribes. The writer offers prescriptive comments, including the text

of a Best Practices Declaration, which should be binding upon any who seek a position on the bench, local state or federal.
