

## The Written Wolf: [A wolf shifter paranormal romance]

She only thought their story was over... Jess Lipton's life was good. Her career was taking off and newly engaged to Collin Foster, the man she'd been with since high school graduation and one of the most sought-after home builders in Boston. They were set to be the next young power couple in Bean town. But a family holiday changes everything. Jess wasn't prepared to see Collin's dark and brooding identical twin brother. How could she be? Colton Foster was the man that broke her heart into a million pieces before Collin swooped in to save the day. Now a millionaire dark romance author, the sexy-as-sin Colton waits until Jess is alone in the pool to remind her of what they once had... She realizes she still harbors feelings for him despite his crushing of her heart. Passion and lust re-ignite between the former lovers and Jess learns the dark truth behind him leaving her all those years ago. Confused and overwhelmed, Jess must end the holidays with a choice... but can she live with the consequences? Note: This hot urban erotica features a gorgeous tattooed alpha male that has no problem baring it all to the stubborn woman he adores. If you aren't into steamy erotic scenes, this might not be for you. However, if you enjoy a urban fantasy romance with lots of hot, passionate love... enjoy! Over 18 only, please!
