

Worth Waiting For (FIT Guys Book 1)

When Colby earned a swimming scholarship to the Falconer Institute of Training, he expected to spend all his time either training or studying, but that was before he looked out of his living room window and straight into the dance studio opposite. Its taken Noah years, but hes finally got his life in order. He teaches dance classes all day, hits the clubs every night and hes not looking for complications especially not in the form of overly-innocent swimmers who like to spy on him from across the street. The first time Colby approaches him, Noah has no trouble turning him away. Its only when Colby returns years later, to collect on a casually delivered promise, that Noah finds himself incapable of keeping Colby locked out of his carefully re-constructed life. Their kinks may match up perfectly, but their lives and their pasts couldnt be more different. Years have passed, but will what they have together turn out to be worth waiting for? Author note: This story contains ***strictly non-sexual*** flashbacks to when one character was under 18.
